

Debt Collection

How many times have you heard these excuses?

"The cheque is in the post"

"We did not receive an invoice, can you send it again?"

"Just waiting on a second signature"

Two findings from a Small Firms Association survey showed that almost 70% of small firms offered credit terms of 30 days or less, yet only 8% were paid within that period. Secondly the survey found that 58% of the firms stated that more than half of their customers regularly paid late. Unfortunately in Ireland, we have culture of paying late and indeed, not paying at all.
